

«Meet the international experts»

Fourth virtual UEMS/BTC preparatory course for transplant coordinators and colleagues involved in the field of organ donation.

30 September and 1 October 2021

Free of charge
for all
participants

Meeting the international experts and learning from their experiences is important in order to increase knowledge and share experiences. In an international symposium, all important aspects of organ donation and a general insight on tissue donation are covered in five sessions and presented by international experts.

In cooperation with the Executive Committee of the Board of Transplant Coordinators (ECBTC) and the UEMS, Swisstransplant took the step of coordinating a virtual preparatory course in view of the UEMS transplant coordinator exam available and accessible for all interested colleagues involved in the field of organ and tissue donation in Europe.
